

Philad^a 2^d mo: 7. 1835.

Dear Friend.

I think it proper as I propose in a few weeks to sail for England to communicate such intention to thee, so that if our valued tho' vilified brother Geo. Thompson, may desire to transmit any letters or papers to our (and his) friends, he may embrace the opportunity.

The business for which I shall go, requires that publicity be not given of my design untill I shall have departed. It is partly connected with my Profession.

Give my affectionate remembrance to our friend Thompson, and tell him I deeply sympathize with him in good & evil report, and fervently pray he may be preserved, so that nothing but glory and honor may redound to the God of all ~~all~~ Justice and Purity -

Remember me also to the brethren generally -
 & also to thy wife; and accept for thyself the salutation of Love, from thy friend

Wm Lloyd Garrison.

Edwin P. Atlee.

N.B. Should I go, recommendatory letters
would be highly acceptable.
